

New Irrigation System Guarantee

Material Guarantee: 2 years on parts/material defects. 2 years on system failure due to installation/workmanship.

Coverage Guarantee: *1 years to all agreed areas.

If you have grass that is dying, due to insufficient coverage, we will make all adjustments necessary free of charge.

Adjustments, cleaning and raising of heads: 1 year - Sometimes yards settle after installation, causing heads to tilt, sink, or rise. It is also possible for pebbles and dirt to get trapped in the line during installation. These can cause clogged nozzles and valves.

We will make any necessary adjustments within this period free of charge.

Labor Guarantee: 1 year full labor guarantee. After one year there will be a labor charge. OED, Inc. prides itself in having one of the highest customer satisfaction rates, lowest repair needs, and highest quality systems. We use the highest quality parts available and generally are light commercial/heavy residential parts.

Components Used: Due to the extreme nature of the elements in this area, OED, Inc. residential sprinkler systems include the following heavy duty, highest quality components:

- Code required and approved Watts back flow prevention device (CW Only)
- Rain Bird DV100 Series Valves
- Piping is Class 200 with Schedule 40 PVC fittings
- Hunter controllers with expandable modules
- Hunter SRS spray body sprinkler heads, with appropriate nozzles
- 18 Gauge single strand UL underground approved wiring
- Zoned to use water evenly, effectively and efficiently

Situations Not Covered Under Warranty: Please read carefully!

*Coverage problems caused by natural growth of existing landscaping, or additional landscaping added after job is completed by us.

*Change in finish grade of property, after job completion, which causes damage to system.

*Change in landscape plan or design of property after installation of irrigation system.

*Damage to property water supply caused by others, physical abuse, negligence or intentional actions of owner or third persons.

*Damaged caused by lightning, natural forces, external forces, including, and without limitation, soil movement, invasion of plant roots, erosion, changes in water pressure or other acts of nature.

Additional Disclaimer: All warranties will be void if any other company/individual repairs or modifies the sprinkler system.
